

Searchlight. Packing a PUNCH

HAPPY NEW YEAR!

We have high hopes for 2021 at a global level as the C-19 vaccines roll out. So too, we have high hopes at a commercial level for [Searchlight Terrier](#).

We are the 'shot in the arm' the profession needs.

There has never been a better time for those in Property Management, particularly in the rural sector, to take a long hard look at itself in the mirror. New Year: New Horizons.

In my last update, I mentioned that I would put some flesh to the bones of just some of the many features [Searchlight](#) offers. This is not, obviously, exhaustive...but it does give a flavour of the practical use one can put the software to.

- 1. Direct Link to your Bank/Accounting Software**
- 2. Automated Rent Demands**
- 3. KPIs**
- 4. Reporting**
- 5. Employees/Contractors**
- 6. Compliance Tracking**
- 7. Transparency**

You will find an document **attached** which elaborates on these points.

Please do keep in touch with your questions at Enquiries@SearchlightTerrier.uk or 020 4530 8585. Or Follow us on [LinkedIn](#).

Remember:

[Searchlight](#) is **equally applicable for professional Land Agents, Estate Administrators and Owners of Estates.**

Here's to a GREAT 2021.

Sholto
